ALL**

About Dicapta

Dicapta Corporation is a communications technology company focused on making media accessible for people with visual and hearing disabilities.

It has been offering high-quality audio description, captioning, and language customization services since 2004.

Dicapta has served the TV industry, media companies, educational institutions, and various organizations in making communications accessible to everyone.

Dicapta has also been funded by the United States Department of Education and the United States Department of Health and Human Services to work on the creation of accessibility assets and the development of technology to improve access to media for people with sensory disabilities.

About Dicapta

Media is our expertise

We have provided media services since 2002. Those include the production of accessibility assets, localization services, and creation of audiovisual educational content.

Technology is our strength

Since its creation, Dicapta has focused on developing technological tools that allow the creation and delivery of accessibility elements more effectively and efficiently. Our technologies, **All4Access** and **GoCC4All** deliver accessible entertainment and emergency alerts.

Accessibility is our passion

The audience with sensory disabilities is our main focus. The services we provide and the technology we create are oriented to serve them.
